I don't think we can run a videoing conference for the presentation, but we can certainly plug you in via phone. We can set-up a call in number if you'd like. I can also ask Krista if she'd be willing to share her PP slides with us beforehand so we could send them to you before the mtg. Let me know what you'd like to do.
Jim

Thanks Jim,.

is there any provision for those of us here in Seattle to join via conf call or video conferencing?

Subject: Portland Harbor partnership Brown Bag Presentation

DEQ is hosting a Wed 1/11/12 brownbag talk from noon until 1:00 in NW Region's Room A/B. Krista Koehl with the Port of Portland will give a presentation titled "The Willamette River, Cleanup & You". The presentation is part of the efforts of the Portland Harbor Partnership designed to engage people from around the metro area on the major milestones coming up in the Superfund process & how the community can participate in Portland Harbor cleanup decisions. The Portland Harbor Partnership is made up of 8 Oregon companies & public agencies working with both PSU & OSU. The partnership states their efforts are designed to expand interest & participation in the Portland Harbor cleanup by using meaningful public outreach techniques & activities to spur a community-wide conversation on how the community invests in the river's environmental & our social & economic health during both Superfund & beyond. Here's a link to the Portland Harbor Partnership's web site: www.portlandharborpartnership.com

Krista's presentation will be about 30-minutes long, & there will be time for questions after the talk. I encourage those of you who may be interested to attend. Even if you aren't too interested in Portland Harbor (although that's hard to imagine), this is a good opportunity to learn about a community involvement plan developed by parties other than the regulatory agencies.
